We participate in several studies for Glaucoma and Retinal disease.

RETINA TREATMENTS

Retinal diseases can have a significant impact upon your vision. In many cases, damage that has occurred cannot be reversed, making early detection important to preserve vision. Carim Eye & Retina Center specializes in treatments of the retina using the latest technologies for patients in Berks County and beyond.

GLAUCOMA MANAGEMENT

Most forms of glaucoma do not have any symptoms until they are in advanced stages. It is also known as "the silent theft of sight" because the loss of vision occurs gradually over a long period of time. We offer the latest in treatments, including the newest medications, lasers and surgical procedures.

CATARACT CARE

You need not suffer loss of vision from cataracts. Cataract surgery is one of the safest and most effective surgical procedures performed today. With advanced technologies, you can return to normal activities right away. With the newest intraocular lens (IOL) implant options, your need for glasses can be reduced or even eliminated.

OUR ON-SITE SURGERY CENTER

State Hill Surgi-Center LLC. specializes in Cataract, Retinal, and Glaucoma surgery along with other eye surgical procedures. It provides the convenience of same site eye care and surgery for our patients.

COMPREHENSIVE EYE EXAMS

Our Optometrists perform a thorough Visual System evaluation of your eyes. We examine for signs of disease such as infections, glaucoma and cataracts. Refractions are performed to determine the exact prescription for your best vision.

EXPERIENCED OPTICAL STAFF

Our optical shop offers a diverse selection of frames and lenses for all of your fashion and visual needs. Our certified opticians will give expert advice from selecting stylish frames to providing the best lenses and options to help you look your best and see the clearest.

CONTACT LENS EXPERTS

Our Optometrists are experienced in fitting all types of contact lenses including soft, gas permeable, bifocal and specialty toric lenses for astigmatism. We stock many brands for same day dispensing right from our office!

PATIENT CONVENIENCE

We participate with most major insurance plans. Contact us to see if we partner with your plan. We accept cash, personal checks, Visa®, MasterCard®, Discover® and American Express®. Emergencies accepted and new patients always welcome!
